This is suitable for Primary and Secondary senior leadership as it is very much a strategic day, for those who influence policy and practice.

- The national and local context and leaders' statutory responsibilities in relation to pupil absence
- Pupil Absence Data – persistent and overall absence; what the census collects and how/when it is published; looking at the schools' individual data in comparison (Leaders will be requested to bring their school's own OA and PA data, in addition to their ASP data)
- Expectations of Leadership and Governance regarding attendance - DfE and Ofsted expectations of schools including the new Ofsted framework
- Registration regulations (including deletion from the admissions register) and coding
- Whole school approaches and strategy (tackling overall absence and persistent absence) – we know what works!
- Supporting individual pupils –safeguarding, Early Help, casework and legal action
- Action planning – what the schools can do next - looking at further training and audits for individual schools
